

## SHARED OWNERSHIP

**OWNERSHIP = EFFORT =  
DESIRE = PASSION = GOALS**

Having ownership is a responsibility you have as an Inclusa Member.

**IT IS IMPORTANT TO HAVE OWNERSHIP OF YOUR CARE PLAN, YOUR SERVICES,  
AND YOUR SUPPORTS BECAUSE THEY ARE YOURS.**

You and your Inclusa team work together to develop a care plan and outcomes that will best meet your health and safety needs. You have the responsibility to follow the care plan that you and your team agreed to. If, the care plan no longer meets your needs, you have the responsibility to contact your Inclusa care team to update your care plan.

You have ownership of what your definition of success is and what fulfillment looks like to you.

- Own your outcomes in Family Care.
- Own the maintenance and care needed for your medical equipment.
- Own your health.
- Own each decision you make daily.
- Own your risks.
- Own the way you treat others.
- Own your responsibilities.
- Own the quality of your services and supports.
- Own your rights.
- Own your life.

**SOMETIMES IT REQUIRES TEAMWORK TO HELP BRING ABOUT RESULTS, BUT  
ULTIMATELY, YOU MUST BE ACCOUNTABLE AND OWN THE RESULTS OF YOUR  
ACTIONS.**

**You have rights. You have responsibilities.**
