

Supported Employment Outcome Based (SEOB) Reimbursement Structure Outlier Determination Request Form

A Humana Company

To initiate an outlier determination process, this form must be submitted to the care team.

Outlier status will only be considered when all of the following conditions are met:

1. The member is employed in a competitive, integrated employment setting with a community employer.
2. The employment position reflects an individualized job match that is based on the member's strengths, interests, abilities, and support needs and supports successful participation in competitive integrated employment.
3. The provider has documented efforts to develop and implement a person-centered employment plan, including identification of the member's vocational strengths, interests, and support needs.
4. The provider has made reasonable and ongoing efforts to establish and maximize natural supports in the workplace and reduce reliance on paid job coaching when appropriate.
5. The employer understands and agrees to provide typical supervision and workplace supports consistent with those available to other employees.
6. The provider demonstrates ongoing efforts to fade job coaching to the least intensive level necessary to support successful employment outcomes, unless fading is not currently appropriate based on the member's individual needs.
7. **There is evidence that the employer understood and agreed, at the point of hire, that they would maintain a typical supervisory role (as with any employee) and would provide typical natural supports otherwise available to any employee and were not promised 100% job coaching as part of negotiations.**

In addition, at least one of the following criteria must be met:

- (Family Care Only) Member's LTCFS analysis results in a new payment tier determination which selected provider, IDT staff, and DVR staff (if involved) feel is insufficient to support the member to successfully maintain his/her integrated employment.
- Member has unique support challenges, as determined by MCO, in consultation with the member's provider and IDT staff, that prevent or delay fading in which case outlier status may be granted on a temporary basis, subject to the provider implementing an approved plan to fade job coaching to an appropriate level given the member's acuity and length of time on the job.

Please confirm which of the following statements are true about the member's current job:

☐ For this job, the member is not employed by the Supported Employment provider agency.

☐ The member was not placed in this job when another supported employee served by the agency (or another SE agency) left the job.

☐ There are no other members or other individuals with disabilities supported by the provider that are employed in the same location at the same time as this member is working there.

☐ If your agency did this job placement, the employer understood and agreed, at the point of hire, that they would maintain a typical supervisory role (as with any employee) and would provide typical natural supports otherwise available to any employee. The employer was not promised 100% job coaching on an indefinite basis as part of hiring negotiations.

If your agency did not do the job placement, check here. ☐

☐ The job duties are a good match for the member's interests and skills, ensuring the member's contribution to the business is valued by the business.

If not true, please explain:

☐ The work environment and culture are a good match for the member's needs and conditions for success.

If not true, please explain:
